“RIMT Innovation Challenge – CODE × CREATE × BUILD × BATTLE × PLAY”
CODATHON | TOYATHON | ROBOTHON | STRUCTURATHON | GAMETHON

COMMON RULES FOR ALL EVENTS

Duration

Total competition duration: 4 Hours / 240 Minutes

Phase	Time
Registration & Team Verification	15 min
Technical Briefing & Problem Statement	15 min
Design/Development	150 min
Testing & Final Submission	30 min
Judging / Demonstration	30 min
Total	240 min

Organizers may conduct registration and briefing before the official 4-hour competition clock to maximize development time.

General Regulations

- Each team must report at least **15 minutes before** the event.
- Team members must carry valid institutional ID cards.
- A participant can be a member of **only one team in the same event**.
- The problem statement/theme will be announced at the beginning of the competition.
- Teams must complete the project within the stipulated time.
- Late submissions may attract penalties or disqualification.
- All work must be original and developed during the competition unless the specific event permits pre-built components.
- Plagiarism, copying another team's work, or unauthorized use of another team's code/design will result in disqualification.
- Internet access may be permitted for documentation, APIs, libraries and reference material, but copying complete solutions is prohibited.
- Judges' decision regarding scoring will be final.
- Any unsafe behaviour, abusive conduct, intentional damage to equipment or interference with another team will lead to disqualification.
- Teams must submit their project/code/design and give a final demonstration before the deadline.

CODATHON

Rapid Coding & Problem-Solving Challenge

Objective:

To develop a functional soft solution for a given real-world problem within four hours.

Team Size

2–3 participants

Possible Domains

- Artificial Intelligence /Machine Learning
- Web Development /Mobile Applications
- IoT
- Education
- Agriculture
- Healthcare
- Smart Campus
- Sustainability
- Cybersecurity
- Social Innovation

Competition Procedure

1. Problem statement will be announced.
2. Teams analyse the problem.
3. Teams prepare solution architecture.
4. Coding and development begins.
5. Testing and debugging.
6. Final submission.
7. Live demonstration and judging.

Rules

- Code must be substantially developed during the competition.
- Teams may use publicly available libraries/frameworks.
- Pre-existing templates/frameworks may be permitted, but the core solution must be developed during the event.
- AI coding assistants may be **allowed or prohibited according to organizer policy**; the rule must be announced before the event.
- Teams must submit source code.
- Internet may be used for documentation and technical references.
- Any copied project submitted as original work will be disqualified.

Final Deliverables

- Working application/software
- Source code
- Short README/documentation
- 3–5 minute demonstration

TOYATHON**Innovative Toy Design & Prototyping Challenge****Objective:**

To design and build an innovative, educational, sustainable or technology-enabled toy addressing a specific learning or social need.

Team Size

2–4 participants

Suggested Themes

- STEM Toy
- Educational Toy
- Sustainable Toy
- Assistive Toy
- AI-enabled Toy
- Robotics Toy
- Puzzle/Logic Toy
- Early Childhood Learning
- Inclusive Education
- Recycled/Waste Material Toy

Recommended Materials

Participants are required to bring following material:

- Cardboard
- Paper
- Ice-cream sticks
- Rubber bands
- Glue
- Tape
- Thread
- Wooden pieces
- Basic electronic components
- LEDs
- Motors
- Sensors
- Arduino/Raspberry Pi, where applicable

Teams may also be allowed to bring basic hand tools.

Rules

1. The toy must be designed and assembled during the competition.
2. Commercially available toys cannot simply be modified and presented as original.

3. The toy must have a clear educational, recreational or social purpose.
4. The prototype must be safe to handle.
5. Sharp edges, hazardous materials and dangerous mechanisms are prohibited.
6. Recycled materials are encouraged.
7. The toy must be demonstrated by the team.

Final Deliverables

- Physical prototype
- Concept explanation
- Working demonstration
- 2–3 minute presentation

ROBOTHON

Robot Design, Control & Race Challenge

Objective:

To design/build and operate a robot capable of following a path in a pre-tracked arena in a race or line following path.

Team Size

1-3 participants

Suggested Robot Specifications

Parameter	Suggested Limit
Robot Type	Remote Controlled
Maximum Weight	2 kg
Maximum Dimensions	400 × 400 × 400 mm
Power	Battery operated
Control	Wireless
Race Duration	5 minutes in provide LFR track
Arena	Enclosed combat arena

The organizer should finalize dimensions and weight after considering available arena and safety arrangements.

Permitted Mechanisms

- Wheeled drive
- Tracks
- Pushers
- Lifters
- Wedges
- Rotating mechanisms, **only if specifically approved**

Match Format

Round 1 – Qualification

Each robot receives a short technical inspection and trial.

Round 2 – Knockout

Based on Time

Match Rules

1. Robot must pass safety inspection before entering the arena.
2. Robot must remain within specified weight and dimensions.
3. Operators must stand in the designated control zone.
4. Match starts only after the referee's signal.
5. A robot that becomes immobile for the prescribed period may be declared defeated.
6. Referee's decision is final.

Evaluation

For a race based event, ranking can be based on:

- Design
- Control and maneuverability
- Technical design
- Innovation
- Safety compliance

Important: Line Following / Roborace should primarily be decided through **match results**, rather than subjective judging.

STRUCTURATHON

Structure Design & Load-Bearing Challenge

Objective:

To design and construct the strongest and most efficient structure using limited materials within four hours.

Team Size

2–4 participants

Challenge Options

The organizer may select one:

**Option A – Bridge Challenge**

Build a bridge spanning a specified gap.

Option B – Tower Challenge

Build the tallest free-standing structure.

Option C – Load Challenge

Build a structure capable of carrying maximum load.

Option D – Efficiency Challenge

Maximum load with minimum material.

Suggested Materials

- Ice-cream sticks
- Wooden sticks
- Paper
- Cardboard
- String
- Thread
- Adhesive tape
- Glue

Example Challenge

Construct a bridge with a minimum span of **60 cm** using only the materials supplied. The structure must support maximum load without collapsing.

Rules

1. Only organizer-provided materials may be used, unless otherwise announced.
2. No pre-assembled structural components are permitted.
3. Structure must be constructed completely within the competition period.
4. Dimensions specified by the organizers must be followed.
5. Structure must be self-supporting where required.
6. Load must be applied according to the prescribed testing procedure.
7. Safety clearance must be maintained during load testing.
8. Any structure exceeding prescribed dimensions may receive a penalty.

Suggested Winner Formula

For a load-bearing competition:

Structural Efficiency = Maximum Load Supported ÷ Material Used

This prevents a team from winning simply by using excessive material.

GAMETHON**e-Game Development Challenge****Objective:**

To design and develop a playable digital game within four hours based on a given theme.

Team Size

2–4 participants

Platforms

Teams may use:

- Unity
- Unreal Engine
- Godot
- Scratch
- HTML5/JavaScript
- Python/Pygame
- Other approved game-development platforms

Suggested Themes

- Save the Environment
- Smart India
- Cyber Safety
- Space Exploration
- Sustainable Cities
- AI for Society
- Indian Culture
- Education
- Disaster Management
- Future Technology

Competition Process

1. Theme announcement
2. Game concept
3. Game design
4. Development
5. Testing
6. Final build
7. Live demonstration

Rules

1. The game must be developed substantially during the competition.
2. Teams may use game engines and permitted asset libraries.
3. Pre-built complete games cannot be submitted.
4. Copyrighted assets should not be used without appropriate permission/licensing.
5. The game must be playable offline during judging.
6. The game should have a clear objective and gameplay mechanism.
7. Teams must submit the playable build and source/project files.

- One participant/team per university per event is recommended unless otherwise announced by the CARAVAN 2026 Organizing Committee.
- Participants must report at least 30 minutes before the event for registration, briefing and technical instructions.
- Unless an event states otherwise, all principal photographs, video and audio must be created on the spot during the competition.
- Participants should bring their own charged phones/cameras, storage cards, power banks, cables, headphones and editing devices required for their event.
- Use of downloaded stock footage, copyrighted third-party visuals without permission, pre-shot material, generative AI images/video/voice, or misleading manipulation is prohibited unless specifically allowed.
- Participants must not obstruct performances, enter restricted areas, damage university property or interfere with another team while recording.
- Content must be suitable for a university youth festival. Hate speech, harassment, obscenity, discriminatory content, dangerous acts and deliberate humiliation are prohibited.
- Where identifiable individuals are interviewed or deliberately featured in staged content, participants should seek their consent. Normal crowd/event coverage must still be handled respectfully.
- Entries must be submitted in the format, resolution, orientation and deadline announced by the organizers. Late or inaccessible files may not be evaluated.
- The decision of the jury will be final and binding. Event-specific instructions announced at the venue will take precedence.

GENERAL RULES FOR INTER-UNIVERSITY COMPETITION

Host University – General Guidelines

1. Eligibility

- The competition is open to students currently enrolled in a recognized university, college or institution.
- Every participant must carry a valid College/University Identity Card.
- The Host University reserves the right to verify participant eligibility at any stage.

2. Registration

- All participants must register within the prescribed deadline.
- Incomplete or incorrect registrations may be rejected.
- Any change in participant or team details after registration will be subject to approval by the Organizing Committee.
- Registration shall be considered complete only after fulfilment of all requirements communicated by the organizers.

3. Institutional Representation

- Participants shall officially represent their respective college/university/institution.
- Where required, participation must be verified by the concerned HOD, faculty coordinator or institutional representative.
- One participant may take part in more than one competition only if the event timings do not clash.

4. Reporting Time

- Participants must report at the designated venue at least 30 minutes before the scheduled starting time.
- Late entry may not be permitted once the competition has started.
- Participants must complete the required reporting/verification formalities before entering the competition venue.

5. Event Schedule

- Participants are responsible for checking the final schedule, venue and reporting time of their respective events.
- The Host University reserves the right to change the schedule, venue or sequence of events due to administrative or unavoidable circumstances.
- Official updates will be communicated through authorized channels.

6. Event-Specific Rules

- Every competition will have separate rules regarding team size, theme, duration, materials, performance time, submission requirements and judging criteria.
- Participants must follow both the General Rules and the Event-Specific Rules.
- Event-specific instructions issued by the concerned Event Coordinator must be followed.

7. Materials and Equipment

- Participants must bring their own materials, costumes, instruments, stationery, devices and other required equipment unless specifically mentioned otherwise.
- The Host University will provide only those facilities or materials specifically mentioned in the event guidelines.
- Participants shall remain responsible for their personal belongings and equipment.

8. Originality and Fair Practice

- Entries must be original wherever originality is a requirement of the competition.
- Plagiarism, impersonation, copying, unauthorized assistance or any form of unfair practice may result in disqualification.
- Participants may be asked to provide an originality declaration for artwork, writing, photography, media or design entries.

9. Use of AI and Digital Tools

- Use of AI-generated content, digital editing, external software or other technological assistance will depend upon the rules of the individual competition.
- Where AI-generated material is prohibited, its use may lead to disqualification.
- Participants may be required to disclose the use of AI or digital assistance wherever applicable.

10. Code of Conduct

- Participants must maintain discipline, dignity and respectful behaviour throughout the event.
- Misconduct, abusive behaviour, harassment, disruption of an event or damage to university property may lead to disqualification and removal from the premises.
- Instructions issued by university authorities, organizing committees, volunteers and security personnel must be followed.

11. Prohibited Items

- Alcohol, narcotic substances, weapons, inflammable substances and any item prohibited under university regulations or applicable law are strictly prohibited.
- Potentially hazardous materials required for a particular event may only be used with prior permission from the organizers.

12. Judging

- Competitions will be evaluated by judges appointed by the Host University.
- Judging will be based on the criteria mentioned in the respective event rules.
- The decision of the judges shall be final and binding.
- Participants shall not directly approach or argue with judges regarding marks, rankings or results.

13. Disqualification

- Participants may be disqualified for violation of rules, misconduct, plagiarism, use of prohibited materials, exceeding prescribed time limits, providing false information or interfering with another participant or team.

14. Tie-Breaking

- In case of a tie, the jury may use additional judging criteria or conduct an additional round wherever necessary.
- The jury's decision in such cases shall be final.

15. Results and Awards

- Results will be announced through the official channels of the Host University.
- Winners may be required to remain present for the prize distribution or valedictory ceremony.
- Prizes, certificates, trophies or medals will be awarded according to the announced structure of each competition.

16. Certificates

- Participation certificates will be issued only to participants who have successfully registered and participated in the concerned event.
- Participants must ensure that their name, institution and other details submitted during registration are correct.
- Requests for correction after certificates have been generated may not be entertained.

17. Photography and Media Coverage

- Events may be photographed, filmed or recorded by the Host University for documentation, publicity, social media, press and institutional purposes.
- Participants should inform the organizers in advance if any specific restriction regarding photography or recording applies.

18. Intellectual Property

- Ownership of original creative work will ordinarily remain with the participant.
- The Host University may use photographs or recordings of participating works and performances for academic, archival, promotional and institutional purposes.

19. Travel, Accommodation and Food

- Travel expenses shall be borne entirely by the participants or their respective institutions.
- Accommodation will not be provided by the Host University unless specifically communicated separately.
- Food, meals and refreshments are not included in the registration/participation and will not be provided by the Host University unless specifically announced.
- Participants are advised to make their own arrangements for travel, stay and meals.
- Information regarding nearby food outlets or accommodation may be shared only for convenience and will not constitute an arrangement or responsibility of the Host University.

20. Personal Belongings

- Participants shall remain responsible for their personal belongings, valuables, instruments and equipment.
- The Host University will not be responsible for any loss, theft or damage.

21. Faculty/Team Coordinator

- Participating institutions may nominate a faculty or team coordinator.
- The coordinator will act as the official point of communication between the institution and the Host University.
- The coordinator shall ensure that participants follow the schedule and competition rules.

22. Grievances

- Any genuine grievance must be reported to the concerned Event Coordinator or designated committee.
- Arguments with judges, volunteers or organizers will not be entertained.
- The decision of the authorized committee shall be final.

23. Cancellation or Modification

- The Host University reserves the right to modify, postpone, merge or cancel any competition due to insufficient participation, administrative reasons, safety concerns or circumstances beyond its control.

24. Host University Authority

- The Organizing Committee reserves the right to interpret the rules and take appropriate decisions in situations not specifically covered in this rulebook.
- All participants and participating institutions shall abide by the rules and regulations of the Host University.

Important Note

- **Registration and participation in the Inter-University Competition shall be considered as acceptance of all General Rules and the specific rules of the respective event.**
- **Travel, accommodation, food and refreshments are NOT included and shall be arranged by the participants/their respective institutions unless specifically notified otherwise by the Host University.**
